

PERSONAL INFORMATION

Name: Jingyi Zhang

Ethnicity: Han

Telephone: 131 4930 6279

Political Status: Communist Youth League Member

Place of Birth: Tianjin

Email: zhangjingyi6279@126.com

EDUCATIONAL BACKGROUND

Sep 2023 - Present

Ph.D. candidate in Pharmaceutical Big Data and Artificial Intelligence, School of Science, China Pharmaceutical University (GPA: 92.82/100)

Sep 2020 - Jun 2023

M.S. in Applied Statistics, School of Science, China Pharmaceutical University (GPA: 92.87/100)

Sep 2016 - Jun 2020

B.S. in Mathematics and Applied Mathematics, School of Mathematics (Zhuhai), Sun Yat-sen University (GPA: 3.8/5.0)

PUBLICATIONS

Research Focus: Early-phase oncology clinical trial design, including Phase I dose-escalation, Phase I–II dose-optimization, Phase II multi-dose randomization, basket trials, and decentralized clinical trials. Published five papers as first author and two as co-first author in SCI-indexed journals, with nine additional co-authored publications. Currently, three first-author manuscripts are under review. Representative works include:

- **Zhang, J.**, Zhou, H., Wages, N. A., Guo, Z., Liu, F., Jemielita, T., Yan, F., & Lin, R. (2025). TODO: A Triple-Outcome Double-Criterion Optimal Design for Dose Monitoring-and-Optimization in Multi-Dose Randomized Trials. *Statistics in medicine*, 44(10-12), e70090.
- **Zhang, J.**, Yan, F., Wages, N. A., & Lin, R. (2023). Local continual reassessment methods for dose finding and optimization in drug-combination trials. *Statistical methods in medical research*, 32(10), 2049–2063.
- **Zhang, J.**, Chen, X., Li, B., & Yan, F. (2023). A comparative study of adaptive trial designs for dose optimization. *Pharmaceutical statistics*, 22(5), 797–814.
- **Zhang, J.**, Lin, R., Chen, X., & Yan, F. (2024). Adaptive Bayesian information borrowing methods for finding and optimizing subgroup-specific doses. *Clinical trials*, 21(3), 308–321.
- **Zhang, J.**, Wages, N.A. & Lin, R. (2024). SFU: Surface-Free Utility-Based Design for Dose Optimization in Cancer Drug Combination Trials. *Statistics in bioscience*, 16, 854–881.
- Lu, M., **Zhang, J.**, Yuan, Y., & Lin, R. (2025). Comb-BOIN12: A Utility-Based Bayesian Optimal Interval Design for Dose Optimization in Cancer Drug-Combination Trials. *Statistics in biopharmaceutical research*, 17(2), 266–276.
- Li, R., **Zhang, J.**, Wang, J., & Wang, J. (2023). Statistical considerations in long-term efficacy evaluation of anti-cancer therapies. *Frontiers in pharmacology*, 14, 1265953.

ACADEMIC HONORS

- The 2nd Su Binghua Biostatistics Scholarship (2025)
- Outstanding Paper Award of the Chinese Biostatistics Conference (2024)
- PhD Academic Scholarship and Excellence Award, China Pharmaceutical University (2023, 2024)

COMPUTER SKILLS AND PERSONALITY

- Software Proficiency: Expertise in R for clinical trial simulation and data visualization; proficient in SAS for statistical analysis.
- Cheerful, friendly, team-spirited, high sense of responsibility, and motivated.
